ABOUT SWHIZZ

Swhizz is a professionally managed modern Software Technology Training cum Development Company that trains students and fresher's and transforms them into professionals and also trains professionals to transform them into absolute master of the domain technologies.

Over the past years we have trained more than 1500 students in various fields of IT, who are placed in various blue chip companies maintaining an impeccable training to placement ratio.

We at Swhizz realize that not all students learn at the same pace. Certain students will get left behind because of the lack of communication between the students and the trainer. That's why we at Swhizz utilize a hands-on approach in all of our classes. Each student has ample opportunity within the class to get one-on-one discussion with trainer and review for any topics covered in course.

We honor, value and celebrate the unique viewpoints of our employees, communities, customers, and other partners in the global marketplace. The perspectives, abilities and experiences of our workforce are key to the success of our company and fundamental to our role in the business. We developed a range of curriculum for people with diverse requirements, from IT professionals needing advanced training to business managers seeking to develop a competitive edge.

OUR VISION

Our vision is to become the trusted choice in this competitive market.

Our passion and professionalism are reflected in the work we do. We ensure the success of our customers through our talented team of professionals.

Our clear vision drives us to take informed decisions and offer customer-centric services:

- Achieve phenomenal success

CLASS ROOM TRAINING

Swhizz Instructor-led classroom training is a live training by the domain expert. The real time interaction of both the trainer and the trainee provides an opportunity for enhanced learning. This platform facilitates constructive dialogue and allows the participants to gain additional guidance.

Batch size : Smaller batch sizes allow the trainer to understand the skill level of each attendee and accordingly maintain right pace of training, confirming individuals grasping of knowledge.

Focused Approach : Trainer is the key here. Our trainers cater to the learning needs of every student. Using a focused approach, our expert trainers adapt to the comfort of the student.

Healthy learning environment : The group of individuals with similar professional interests can follow structured learning and be benefited with others knowledge/experience.

Quicker problem solving : An interactive session full of examples, exercises and project based learning builds a great peer group that facilitates quicker problem solving.

24*7 learning : Evaluate and improve your learning round the clock through the provided study material, training videos, sample assessments, mock tests.

One to One approach : Swhizz provides the one-to-one trainings in all latest technologies.

ONLINE TRAINING

Swhizz online training process provides a team of coordinators who convey between the trainer and the students to conduct trainings and follow up with the training. All trainings are conducted using ZOOM/GO TO MEETINGS for ease of access which can be accessed through mobile.

Swhizz provides the flexibility to choose from Regular sessions, Weekend sessions and Fast track sessions.

Swhizz offers impeccable co-ordination between students and instructors throughout the duration of the course. Course material designed by the instructor and the training videos will be provided. Q & A sessions are held periodically to help students ramp up to speed.

Online Trainings expert highlights

- IT online training for all technologies (online & corporate training).
- Online demo Classes on every weekend for every technology.
- Advanced concepts with career improvement planning.
- Resume and Interview preparation.
- Our 24×7 support! Just request for a one -to- one session and a highly experienced expert will resolve your query anytime you want.
- Recorded sessions of all the classes.
- Flexibility of attending the classes from home, rescheduling the classes and taking a repeat session.

CORPORATE TRAINING

Certified trainers with demonstrated industry experience, train employees with the skills requested. Trainings are available to both new and experienced individuals. We take the requirements from our vendors.

Swhizz handles corporate deals from various organisations. Our trainers travel across locations to conduct seminars, training sessions, corporate workshops, individual training sessions, and so on.

Our training sessions and workshops established a well-liked reputation among our clientele. Most of the requests we receive for corporate training are from Delhi, Bangalore, Mumbai, Hyderabad, Pune, Gurgaon in India, and a few other places across the globe.

Swhizz maintain relationship and commitment with the clients by meeting the deadlines and we are maintaining long-term relations with many of our clients. A few of our most-valued clientele are Innovare, C2N, PlugXR, Efficacy, RayTex, Omega, Coign, and VITA among others.

Swhizz ensures long-term relationships between the trainer and the client. Proficiency with endurance in our trainers brings the best of Swhizz to you.

INTERNSHIP PROGRAM

Swhizz Internship trains students in technologies of their choice, by experienced trainers. Students are provided with real-time experience through expert developers. We train them, assist them, and have them perform real time projects tasks on hands-on.

Internship program is designed for graduate/undergraduate students to give them an opportunity to work with an industry expert to share their industry knowledge to provide platform for upcoming talents. In this program, students will work under supervision of our team. Our team has extensive experience in building, delivering and managing mission critical, robust and complex IT systems.

During the internship program, interns will get an opportunity to experiment with their ideas in real-time environment.

Highlights of Internship:

- Real Time Project environment.
- Knowledge on latest technologies
- Internship certificate
- Work on sample project.
